To Whom It May Concern,

It is with pleasure that I write this letter of recommendation for Kelly Donham Harris. Kelly was an outstanding student in the Java Programming class that I instructed at Devry University. I now have the privilege of instructing Kelly at the graduate level in the Keller School of Management.

I recommend Kelly without reservation for technical and programming positions. She has the analytical acumen, diligence and commitment to her work that is required to complete high quality technical deliverables.

I have managed high performing teams in corporate environments including BP Oil, National City Bank and Nationwide Insurance. Kelly's aptitude and work ethic are equal to some of the best performers on teams I have led and her commitment to her students exceeds that of my students I have instructed. If you have any questions or would like to further discuss my impressions of Kelly's abilities, please do not hesitate to contact me.

Sincerely,

Linda Gaston
